

Ploetz + Zeller GmbH is an agile and innovative software product and consulting company in the field of BPM. With our products Symbio and movmint we digitize and dynamize the integrated process management system. In this way we are working together towards the goal of establishing an automated and assistance-based management system for our customers. Our customers range from large DAX corporations to small innovative SMEs.

For our locations in Dortmund we are looking for several full-time

Software Developer .NET (m/w/d)

for the development of our standard products/services

You enjoy

- to help shape the success of P+Z with ideas and creativity and to become a part of it
- further develop our products with agile methods (SCRUM) in a very flatly organized development team
- to develop software enthusiastically while keeping an eye on customer benefits

We would like to get to know you, if

- You have successfully completed your studies in computer science, business informatics or have many years of professional experience in software development, alternatively you have successfully completed your apprenticeship as an IT specialist in application development
- You have a very good knowledge of C#, NET Framework and Microsoft SQL Server
- ideally you have knowledge of JavaScript, HTML, CSS, XML, Angular or ReactJS
- You speak very good German and English
- You are interested in innovations/new technologies such as Cloud (MS Azure), Data Analytics & Machine Learning, Digitization, as well as Internet-of-Things etc.
- in addition, independent and autonomous work is important to you

You can expect

- a great team with enthusiastic colleagues and flat hierarchies
- a flexible working environment, flexible in terms of time and location and the possibility to work independently
- an extensive range of topics and tasks, such as design and further development of existing and new components for Symbio, the conception and implementation of customer-specific requirements and much more

Are you interested?

Send us your application documents with the earliest entry date and salary expectations to recruiting@p-und-z.de !

We are looking forward to it! Thank you.

The P+Z Team
